Sanitaryware

Our sanitary ware collection boasts a wealth of beautiful curves and soft square profiles, adding a touch of elegance to any contemporary bathroom design.

Double-shift water outlet: the design of the 3/4.5L double-shift water outlet not only ensures a thorough clean, but it also saves water.

Rimless toilet: traditional flush rims attract germs, dirt and deposits. Each LETOP Rimless Toilet is designed entirely without a flush rim, so there are no hidden, hard-to-reach places where bacteria can build up and odour can develop.

Soft close seat cover: a built-in damper reduces the impact and noise made by the seat cover when it's closed.

Easy to clean glazing: the smooth surface of the porcelain glaze has been specifically designed to be easy to clean, with no hidden or hard-to-reach places where bacteria can build up.

Whole-sewer glazing: the inner surface of sewer is completely glazed, ensuring that there is nowhere for dirt to hide, minimising the chance of blockages.

Easy assembly & disassembly: the design of easy assembly & disassembly is excellent. A slight twist can ensure the easy cleaning of the toilet.

Each LETOP Rimless Toilet is designed entirely without a flush rim, so there are no hidden, hard-to-reach places where bacteria can build up and odour can develop.
